

April 22, 2008

Dear Staff, Parents, and Guardians,

Last evening, our Board of School Directors approved a revision of our current 2007-2008 school calendar to make up the school day in February that was canceled due to weather conditions. It was important to wait until we were completely out of the winter weather window for the Board to act on this calendar revision.

**As we need to make up one school day, our last day for students and our Graduation will now be on Tuesday, June 17. Our final professional staff development day will be on Wednesday, June 18.** A revised calendar is included with this communication for your reference.

While we will continue to publish this single page school calendar, please be advised that the Board also decided last evening to no longer publish the school district's annual wall calendar. Instead, we will be implementing an online school district calendar to our website that can be personalized, downloaded, and printed out. We plan to have the online school district calendar ready for the start of the 2008-2009 school year and more information will be sent to you in the future.

Please feel welcome to contact me with any questions.

Sincerely,

Raymond J. Boccuti, Ed.D.  
Superintendent
