July 01, 2011

The New Hope Solebury School District has engaged Eagle Industrial Hygiene Assoc., Inc. to fulfill the requirements of the Asbestos Hazard Emergency Response Act (AHERA), 40 CFR Part 763, Subpart E. This law requires that each Local Education Authority (LEA) engage EPA accredited individuals to initially inspect and subsequently re-inspect every three years all student and staff accessed areas for the presence of both friable and non-friable asbestos containing materials (ACM) and to develop an Asbestos Management Plan from the information developed from the building inspections. All accessible areas of the facilities were inspected for asbestos-containing materials.

The Management Plan provides a description of the amount, type, location and condition of all ACM found in these areas. The Plan also contains a detailed schedule of responses and activities for handling the ACM. The Management Plan is available for review in the school offices and at the Director of Operations office during business hours."
