

G-Force

The G-Force is a group of students who work collaboratively with Mr. Granato, our head custodian. The group is comprised of fifth grade students who are willing to work behind the scenes for the good of their school community. This group of committed students works side by side with Mr. Granato to prepare the school for events. They will do projects such as setting up chairs, taking down chairs, giving tours for guests, running back-pack mail or special deliveries, set-up or take down of any type of event that is housed in the UES. They are an integral part of our school happenings and without them we would not be ready for presentations and events!

Total Students (2007/2008): 26
