- 2017-2018 Budget
  - o Mr. Lechman provided a brief overview of the current status of the 2017-2018 budget as compared to the same period in the prior year. Currently all revenues and expenses are trending normally. Current year 87% of budgeted revenues have been received and prior year 88% was received. On the expenditure side 62% of budgeted expenditures have been accounted for as compared to 67% prior year.
  - O Budget Transfers were reviewed at this meeting and it was confirmed that none of these transfers have an impact to the overall 17-18 budget. Some of the transfers were large this month so there were discussions to cover the following transfers:
    - Transfer for the purchase of 2 new lawn mowers and the transfer of 1 mower to the LES.
    - Transfer for the purchase of key FOB systems to expand the use of FOB's to access our buildings which will allow for increased security capabilities at all active entrances to building.
    - Transfer to replace the wooden backboards in the HS gym to bring up to standard backboards.

- Transfer for the \$50,000 donation received for Athletics. The budget included a budgetary reserve line item for donations and a revenue line item. This is moving the reserve expense to the proper athletic accounts that were used to spend this donation.
- Mr. Lechman also provided an update on the campus revitalization project financials. The remaining project contingency is \$449,550 as compared to the prior month of \$467,765.

# • 2018-2019 Budget

- o April Budget Update The goal of the administration was to progress toward a final budget that is structurally balanced with a maximum tax increase recommendation of the approved Act 1 index which is 2.4% and the April draft of the budget achieves this goal. The April draft budget reflects all changes that we are able to accurately update at this point in time. Mr. Lechman reviewed the details of recent budget changes with the committee. The 18-19 budget also introduces line items for safety and security which is funded in year one by the favorable medical premium rate increases being under 1% for next year. There is little information available regarding the state budget at this point in time. A proposed final budget will be reviewed with the committee and presented to the board in May and the final budget will need to be approved by the board in June.
- MBIT Budget Review Mr. Lechman presented the 2018-2019 budget for the Middle Bucks Institute of Technology (MBIT) as it relates to New Hope-Solebury School District. The total tuition cost is \$248,595 and the lease rental debt is \$115,205 for a total cost of \$363,800. Costs are allocated on a per pupil basis and as enrollment from other sending districts are decreasing, the costs for our relatively level enrollment is increasing. The budget and payments throughout the year are based on an average ADM trend. Then at the end of the year a reconciliation is completed to compare the budget to actual costs and actual enrollment and either a credit is issued or an invoice is submitted to be paid.
- Audit Engagement Letter At the last meeting Mr. Lechman made the
  recommendation to move forward with Barbacane, Thornton & Company LLP for a
  3 year engagement which with the goal of formally approving at the April Board
  Meeting. The committee reviewed the current draft of the engagement letter for the
  audit services for the year ended June 30, 2018. The audit firm confirmed their
  understanding of the audit services we are requesting of them and the associated
  costs. They confirmed that the costs include all of the costs they are anticipating.
  - o Engagement letter has been reviewed with our solicitor and the draft the committee has is the red-lined version. All requested changes have been accepted by the audit firm except for the paragraph on page 25 as this is an audit standard and therefor a required statement in the engagement letter.

o The committee had suggestions for a couple other items to add to the engagement letter which Mr. Lechman will review with the audit firm.

### Contracts

- o ALICE Training Institute Master Service Agreement Mr. Malone provided an overview of this agreement. This is the final requirement for the ALICE program that is being implemented district wide. We have completed the face to face trainings with a core group of staff that will use a train the trainer model. The agreement is to enhance the face to face learnings for all staff across the district in an ELearning format and to keep certifications up to date. This will also allow us to cover all extended areas of the organization including transportation, coaches and after care as examples. This is a 3 year contract at a cost of \$2,747.50 per year.
- 2018-2019 Special Education Pool Counsel Legal Services Agreement The contract provides consortium based legal services for special education for the 18-19 year. These services are utilized by districts across Bucks County. This includes face to face services, electronic resources and sharing of case law with all participating members at a cost of \$6,000.
- Transportation Update The district has not been able to find transportation providers that are interested in submitting proposals for transportation services. We will continue talking to providers to gauge interest, but it is highly likely that the recommendation in May will be to accept the 5<sup>th</sup> year option to extend the current contract with First Student.
- A motion was made by Mr. Marcus and seconded by Mrs. Povacz to move the following items forward to the board for approval:
  - o 2017-2018 March Budget Transfers
  - o MBIT Budget for 2018-2019
  - Contracts
    - ALICE Training Institute Master Service Agreement
    - SSKW Special Education Pool Counsel
    - Audit Engagement Letter for June 30, 2018

# **Public Comment**

- Public comments were made throughout the meeting and are captured in the meeting minutes as appropriate.
- The following comments were made about non-agenda items:
  - Mrs. Stiefel Demographic Study status request for a copy of the report and a presentation to finance committee.
  - Mr. Band Athletic Committee should be reinstated to advise on athletic topics.
    - Safety and Security recommendation for more staffing.

 $\mbox{Mrs.}$  Stiefel made a motion which was seconded by  $\mbox{Mrs.}$  Povacz to adjourn the meeting at 8:15pm.

Respectfully submitted,

Andrew Lechman
Business Administrator

# PROPOSED FINAL BUDGET - MAY 24, 2018

July 1, 2018 through June 30, 2019

# Introduction

Attached for your review and consideration for approval is the proposed final budget for the 2018-2019 fiscal year. The total expenditure budget is \$40,890,946 which is being funded by total revenues of \$40,890,946 which is a structurally balanced budget. This budget is balanced while maintaining current staffing levels and with no reductions in programming or services for students. The revenue budget is being funded with a 2.4% tax increase which is the Act 1 index. No exceptions are being used to fund the 18-19 budget. This generates approximately \$700,000 in new revenue. The total committed fund balance for future PSERS increases remains at \$700,000 and for Capital Projects remains at \$1,760,000.

# **Expenditures**

The expenditure budget represents an increase of \$553,342, or 1.4%. This is a significant accomplishment as salary and benefits costs represent 73% of the total expenditures of the District and the employer costs for PSERS increased by \$290,000 as the employer rate increased from 32.57% to 33.43%. Savings were realized in multiple areas of the budget including a new contract for disability and life insurance which saved over \$85,000, workers compensation rate reduction from SDIC consortium, building/department reductions and transportation efficiencies. The district medical benefits renewal rate was also a huge win at less than a 1% increase. A large unknown, however, is the contract between the District and NHSESP, which is currently being negotiated.

### Revenues

The revenue budget represents an increase of \$778,480 or 1.94%, driven mainly by the 2.4% property tax increase. The state budget is not yet approved for the 18-19 fiscal year; therefore, the state revenue assumes no growth and is identical to the SY 17-18 budget. State subsidies for retirement and FICA are increased due to the increase in PSERS employer costs for SY 17-18.

# Additional Information

Captial Improvements – This budget continues to meet the goal of building a committed fund balance for capital improvements of our facilities. The district is in the final stages of a facility condition assessment that will generate a list of capital projects that the district will need to address. This list will range from immediate needs to long term needs so we can begin to line up financial resources to assure that our facilities are appropriately maintained. We have budgeted \$234,000 for immediate needs in the 18-19 budget. If these

funds are not expended during the SY 18-19 budget year, the District shall recommend either a board commitment of these funds for use in future years or moving the funds to a capital reserve account.

**Safety and Security** – This budget expands upon the work of the campus revitalization project to continue to assess and build out safety and security measures across the district. This is being accomplished with the addition of \$140,000 in budgeted line items for this specific area.

**Budgetary Reserves** – This budget continues the practice of having a \$150,000 budgetary reserve which includes \$50,000 for potential donations. There is an offsetting revenue line item of \$50,000 for donations. A budgetary reserve is included as a placeholder for any potential unknown items that may arise that were not planned for as part of the budget process. Before any funds from the budgetary reserve could be used it would require a board approved transfer with the justification for the transfer.

Respectfully Submitted,

# **NEW HOPE - SOLEBURY SCHOOL DISTRICT**

# 2018-2019 Food Service Budget

The primary focus of the Food Service Program is to increase student participation and satisfaction by offering a varied selection of items on a daily basis, while complying with all governed regulations set forth through the HHFKA of 2010. The daily goal is to continue to provide well-balanced nutritional meals, appealing to the student population as a whole, while still having flexibility for the individual. Even though the allocation of government donated food items is minimal at NHSD due to the Free and Reduced Meal population, we still maximize our commodity dollars.

The District participates in an extensive Eastern Pennsylvania purchasing cooperative which provides competitive pricing for food and supplies based on the volume generated by the number of participating school districts.

Balancing priorities in a school nutrition program includes factors such as nutritional standards, appealing choices, affordable meals, food safety, commercial influences and student preferences.

Healthy foods are offered in New Hope-Solebury as part of the National School Breakfast and Lunch Program that meet the dietary guidelines. In addition, as set forth in The Smart Snacks initiative, all ala carte items sold meet requirements. In addition, we are certified and approved for an additional federal reimbursement for our program. This is referred to as the .6 Cent Review Performance Based Reimbursement.

All staff has completed Civil Rights, SDS and HACCP (Hazard Analysis Critical Control Point) training. In addition, required staff in each kitchen has completed and is ServSafe Certified, along with Food Service Director. Our kitchens are inspected twice annually by the Department of Health, to ensure we are maintaining proper standards.

# **PRICING**

The proposed Type A Lunch pricing will remain at \$2.90 at the Elementary School, and will also remain at \$3.35 at the Middle School and High School levels. Breakfast pricing will remain at \$1.75 at the Middle School and High School levels and will also remain at \$1.50 at the Elementary School.

Ala carte items will be selectively increased where needed to reflect the costs incurred for overall product and labor cost increases.

# REVENUE

The main source of revenue is from daily sales to student and staff as well as Federal and State subsidies to the program. The key is to create greater participation while adhering to the Federal Food guidelines.
