November 2018

Annual Parental Notification of Asbestos Management Plans 2018-2019 School Year

This notice is to inform all parents, faculty and staff of the availability of the asbestos management plan for each building under the jurisdiction of the New Hope-Solebury School District (NHSSD), as required by law.

In accordance with the Asbestos Hazard Emergency Response Act (AHERA), 40 CFR Part 763.93, the District conducted initial inspections of all the School District buildings for the presence of Asbestos Containing Building Materials (ACBM) in 1988. An asbestos management plan for each building was developed at that time, detailing the location and condition of all ACBM along with the short-term actions to be taken to protect building occupants, and documentation of response actions.

These management plans are available for review by any interested person at either the NHSSD Administration Office located at 180 West Bridge Street, New Hope, PA; or at the individual School during normal working hours. AHERA regulations require re-inspections of all ACBM every three years by an accredited building inspector, and this includes an update of the Management Plan. The latest 3-year re-inspection and management plan update was completed in November 2018 by Element Environmental Solutions, Inc. (E2S).

The AHERA regulations also require surveillance inspections of all ACBM every six months, by an individual with training and knowledge of ACBM. E2S completed the most recent 6-month surveillance inspection, which occurred in November 2018 (covered in the AHERA 3-year re-inspection requirements). The next 6-month surveillance inspection is due in May 2019. These reports and management plan updates are also available for review by any interested person at either the NHSSD Administration Office located at 180 West Bridge Street, New Hope, PA; or at the individual School during normal working hours.

Regards
