

# My Day at Kindergarten

My Day at Kindergarten folder is a tool that helps a child share with family members what he/she did at school. Photos are attached to Velcro strips. They are placed and changed each day to facilitate a conversation about daily activities. (A teacher, aide, or buddy may help the child select which picture(s) to place in each category.

To provide consistency between pre-school and kindergarten, a similar folder may be used at the end of the kindergarten day. A variation of this folder (sent from home, with help from family members) may also be used to facilitate conversations about what a child did at home in the evening or over the weekend.

Once it becomes a familiar tool, this folder may encourage a child to share valuable information about how the transition to kindergarten is going, as well as, help the child know what to expect and what is expected of him/her.
