Information,  
AND  
Network With  
Each Other**

## **ABOUT US**

The Pennsylvania State Task Force is charged with ensuring that the mandate and spirit of the Right to Education Consent Agreement are carried out throughout the commonwealth. The Right to Education was launched initially as a statewide education campaign designed to identify and locate school-aged children with intellectual disabilities. The State Task Force now addresses the educational needs of all children with disabilities.

Each Meeting is a FREE NETWORKING opportunity for Family members of individuals with special needs and educators!
