

Kids, you are going to find the assignment for the course that you are going into based on the course that you are just finishing. There will be an assignment there from Delta Math. You will need to follow the directions to join the class and login to the site. If you have difficulty with this over the summer, please email brutledge@nhsd.org, lsincavage@nhsd.org, and mthompson@nhsd.org and one of the teachers will help you to log in. These assignments are meant to be review in nature, so you should be familiar with the content. If you are having trouble with any of the material, there are videos available on Delta Math for you to refer to. If you are frustrated and need help, please make note of the skill where you are having difficulty and ask that question in class in September as part of the in class review. Have a great summer!

Directions for ALL STUDENTS to create a Delta Math account and to login for the first time

- Go to www.deltamath.com
- If you *have a delta math account already* follow these [instructions to add a teacher](#) and use the access code **843651** (this is going to put you in Dr. Rutledge's Delta Math classes)
- If you *do not have a delta math account already* [follow this video](#) using the following access code **843651** (this is going to put you in Dr. Rutledge's Delta Math classes)

You do not (ALL) have Dr. Rutledge! Your actual math teacher is a "co-teacher" online so they will be able to see your work in this course next year.

Students going into Core 7 or Intro to Algebra (Grade 7 or Grade 8)

Join the class titled "Summer 2022 Middle School Math Core Skills Practice" by choosing that class in the drop down menu for Dr. Rutledge's classes and complete the assignment titled "Summer 2022 Middle School Math Core Skills Practice". Use the videos in Delta Math if you need help! Feel free to complete extra practice on any skills where you feel you need the help.

Students going into Algebra One (Grade 7 or Grade 9), or into Algebra Topics (Grade 8)

Join the class titled "Summer 2021 - Pre-Algebra practice" by choosing that class in the drop down menu for Dr. Rutledge's classes and complete the assignment titled "Summer 2021 Pre-Algebra Skills Practice". Use the videos in Delta Math if you need help! Feel free to complete extra practice on any skills where you feel you need the help.

Students going into Algebra Two from either Algebra One or Geometry

Students going into Geometry from Algebra One (Grade 8 or Grade 10)

Join the class titled "Summer 2022 - Algebra One practice" by choosing that class in the drop down menu for Dr. Rutledge's classes and complete the assignment titled "Summer 2022 Algebra One Skills Practice". Use the videos in Delta Math if you need help! Feel free to complete extra practice on any skills where you feel you need the help.

Students going into Geometry from Algebra Two

Students going into Pre-Calculus from either Algebra Two or Geometry

Join the class titled "Summer 2022 - Algebra Two practice" by choosing that class in the drop down menu for Dr. Rutledge's classes and complete the assignment titled "Summer 2022 Algebra Two Skills Practice". Use the videos in Delta Math if you need help! Feel free to complete extra practice on any skills where you feel you need the help. Note - this is not an error....it is more important to review the algebra skills than the geometry skills as you head into pre-calculus
